

Lindsay Rankin

SUMMARY: *Leveraging the statistics and quantitative research focus of my PhD in social psychology, I built a successful remote freelance career in conducting, consulting, and tutoring of statistics, data analysis, R coding, and research. In addition to my technical skills, I have developed strong communication skills that have enabled me to work with clients across diverse fields and from technical and non-technical backgrounds.*

SKILLS

Statistics and data analysis: wrangling/cleaning, visualization, exploratory analyses, modeling/testing
Quantitative research methods
Experimental design aka A/B testing
Survey design and analysis
Research writing

R: Including custom package development
SPSS: Including syntax-based approaches
Python & SQL, *skills in development*: Light usage of each in current data science role, building on recent self-teaching including DataCamp 36 hour career track (Python) and 21 hour skill track (SQL);

EXPERIENCE

Data Science/Analytics, Freelance 2018-Present

- Data analysis, statistical testing, research design, and survey development for business and nonprofit clients. Example projects:
 - User survey analysis to advise new product development
 - Development, survey programming, and analysis of measurement scales to track client progress for self-help influencers
- Data scientist for an HR/leadership consultancy integrating data pipeline from evaluation surveys to individual report generation. R coding, ggplot2 visuals, custom R package creation, github collaboration
- “Top Rated Plus” and 100% Success badges on Upwork

Statistics and Research Methods Coaching and Tutoring, Freelance 2015-Present

- Statistics, R, SPSS, Excel, research methods, and research writing tutoring. Specialization in coaching and consulting independent research projects for academics and graduation students, and statistics/R teaching for data analysis professionals
- 4.9/5 rating on 2500+ reviews on Wyzant

Market Research Associate, Pre-Ph.D. *Richard Day Research, Evanston Illinois*

- Programming online surveys or coordinating data collection via phone interviews with in-house call center
- Cleaning, analysis, presentation building of data-driven recommendations for nonprofit and financial service clients

EDUCATION

New York University 2014

PhD & MA social psychology, quantitative methods concentration

- Experimental and survey research methods
- Statistics coursework: Intermediate Statistical Methods; Regression; Psychometric Theory; Structural Equation Models; Analysis of Change
- First-authored publications based on regression-based moderation and mediation analyses
- Dissertation on motivated attitudes, utilizing repeated measures generalized estimating equation (GEE) methods
- Teaching assistant/lab leader for graduate course in regression (MA and PhD students)
- Coons/Leibowitz Graduate Student Teaching Award for excellence in student teaching in psychology, 2014

Northwestern University 2005

BA psychology

- Magna cum laude
- Department honors for independent quantitative research project, became a first-authored peer reviewed journal publication
- William A. Hunt award for best undergraduate research paper in psychology, 2005
